Hello.

My name is Nicki and I am a current career changer. I have been a primary school teacher for the last 10 years and I am now following my passion in technology and specifically web development. My favourite motto is 'Learning for Life'. I am an avid learner and believe everyone should continue to learn and be the best versions of themselves.

WORK EXPERIENCE

2022-2023

Childcare centre search API project

I developed a backend restful web API in the MVC project structure. In the API there were many different routes created and queries with a variety of filters added. The API connected to a PostgreSQL database and an ORM was used. Authorisation and authentication were also added to the API for security purposes

2012-2023

Primary School Teacher

- Osbornes Flat Primary School (All year levels) - small rural school
- Wodonga Primary School (Casual Relief Teaching) - large school of 930 students.

*Key skills utilised: collaboration, organisation, patience, flexibility, resilience, growth mindset
